

Role of TKA's School Nurse and Athletic Trainers

- Provide Emergency Care
- Host Sports Physicals
- Prescribe Therapeutic Exercise
- Manage Injuries: chronic/acute
- Perform Concussion Screening: baseline/post-trauma
- Provide Psychological Support
- Help screen and manage students' health care needs that affect educational achievement.
- Promote a healthy school environment.
- Collaborate with the Director of Operations to prepare procedures and needed supplies for any school emergency, including natural disasters and crisis situations.

**If your student was seen by TKA's school nurse or athletic trainers, please follow up and seek a higher level of care with your family medical care provider as needed.*
